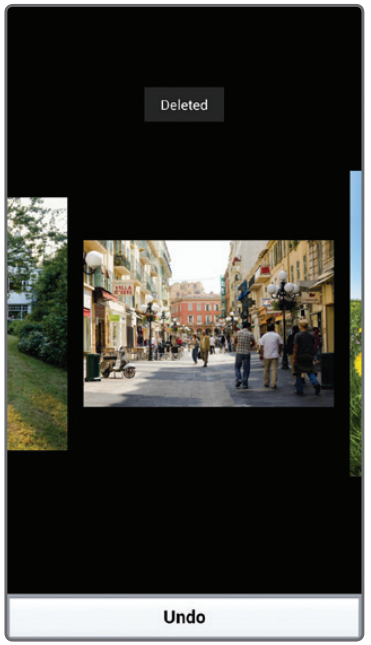
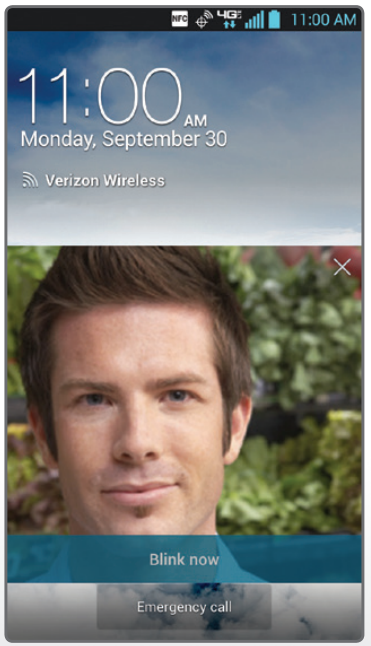
18. microSD™ Memory Card Slot

Android™ 4.1.2 (Jelly Bean)

Android 4.1.2 has many new and exciting features that bring your mobile phone experience to a whole new level. Here are some of the highlights:

- View full text messages in the Notifications Panel – no need to open the Messaging app
- Additional Gallery options – pinch the screen to change layout. Select a photo, pinch the screen, then drag it up to quickly delete it
- Liveness Check requires you to blink to unlock the phone as an additional security precaution for Face Unlock
- More reactive and uniform touch response





Customize Your Phone

Organize Spectrum™2 by LG to fit your lifestyle! Add shortcuts, apps, and widgets to any of the five home screens. Create folders to manage and arrange your favorites.

Customize a Home Screen

1. On any home screen, touch +. Or, press and hold a blank space on the home screen.
2. Touch **Apps**, **Downloads**, or **Widgets** to see available items in that category.
3. Touch an icon to add it to the home screen. A note will pop up if there is not enough space available on that screen.
4. Press and hold the icon to adjust its position on the panel. To remove it, drag it to **Remove**.

Create a Folder

1. On any home screen, simply drag one app icon onto another.
2. To change the name or the color of the folder, touch it, and then touch the tab of the folder icon.
3. Type a name for your folder, and choose a color.
4. Touch **OK**.

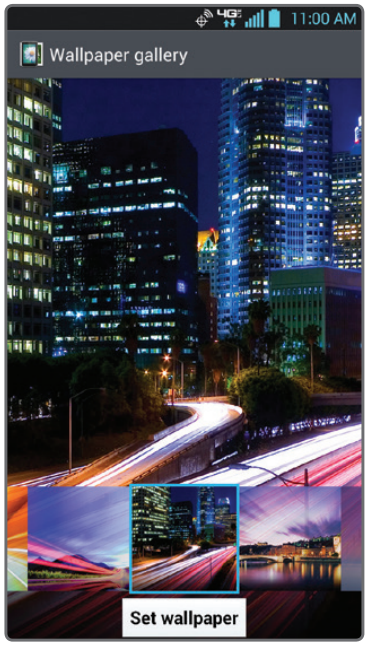
Choose from many wallpaper options on Spectrum2, including Live Wallpapers, Charging Wallpapers, or a picture from your Gallery. Change the theme (overall appearance) to fit your mood or match your style.

Change the Wallpaper

1. On any home screen, touch . Or, press and hold a blank space on the home screen.
2. Touch **Wallpapers**.
3. Swipe to scroll through wallpaper options, including **Charging wallpapers**, **Gallery** images, and **Live wallpapers**.
4. Touch the option you desire and follow any additional instructions.
5. You can also change the wallpaper in the home screen settings menu. Press and then touch **Home screen settings** > **Wallpaper**.

Change the Theme

1. From the home screen, press and then touch **Theme**.
2. Touch the option you desire and then touch **Apply**.



Calling and Global Network

At home or around the world, stay connected with friends and family. Global Roaming on Spectrum^2 keeps you in touch no matter where you travel.

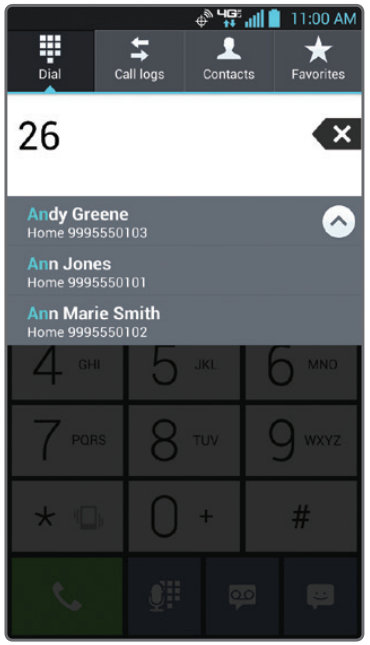
Make a Call

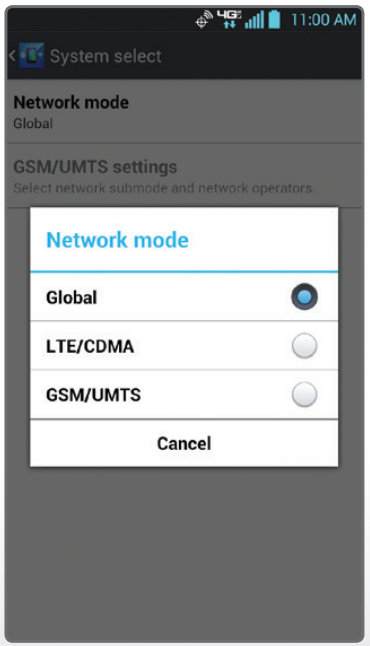
1. From the home screen, touch .
2. Dial the number you want to call, or start spelling the name of the desired contact. You will see a list of contact options. Touch to expand the list, and touch a contact to select it.
3. Touch to place the call.

Use Global Network

1. From the home screen, press and then touch **Settings**. Or, touch > .
2. Touch **More...** > **Mobile networks** > **System select** > **Network mode**.
3. If Global is not selected, touch it to change to Global Network mode.
4. You can connect to data services while roaming. While in the Mobile network settings menu, touch **Global data roaming access** > **Global data roaming*** > **Yes** to turn it on.

*Global data plan service required. Data access outside the US may result in significantly higher charges.

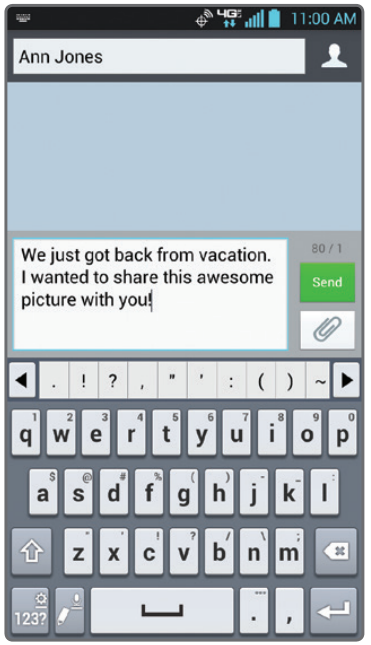


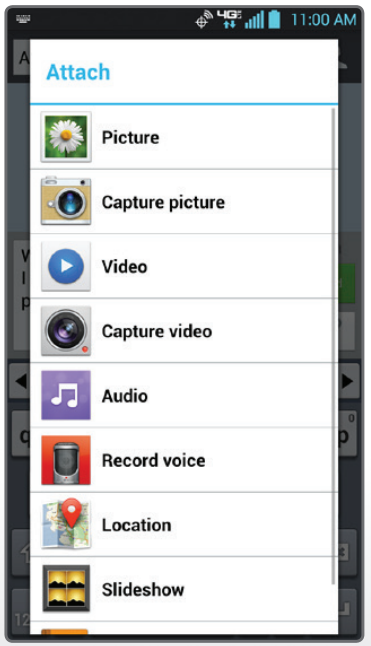


Messaging

Communicate privately and quickly via text messaging. You can also attach images, videos, and other files, as well as add a location to your messages.

1. From the home screen, touch > .
2. Enter a contact name or number, or touch to access your contact list or call logs.
3. Enter your message.
4. To add a picture, location, or other attachment to your message, touch . Choose from the list of options and follow any additional instructions.
5. Touch **Send MMS** to send your message.

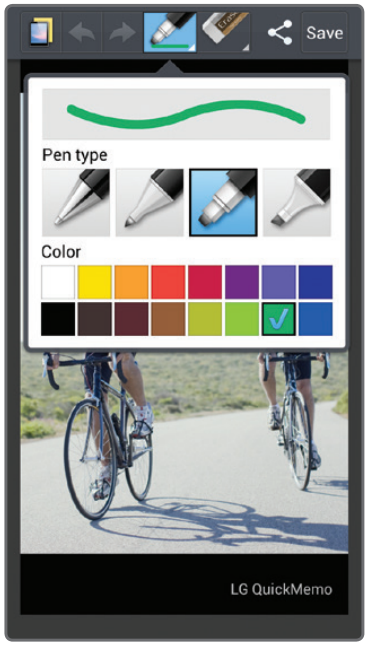




QuickMemo™

Use QuickMemo to write personal notes, draw quick sketches, or jot down ideas. Share your memos with friends and family, or just save them on your phone.

1. On any screen, swipe down on the Notifications Bar and touch **QuickMemo**.
2. Touch to change your pen type or color.
3. Write or draw anywhere on the screen with your fingertip.
4. To change your memo, touch to erase with your fingertip. You can also touch to undo previous actions.
5. To share your memo, touch and select from the list of options. To save it to your photo gallery, touch **Save**.



Camera and Camcorder

Spectrum2's camera has innovative features for capturing each and every moment with 8-megapixel clarity.

Take a Picture

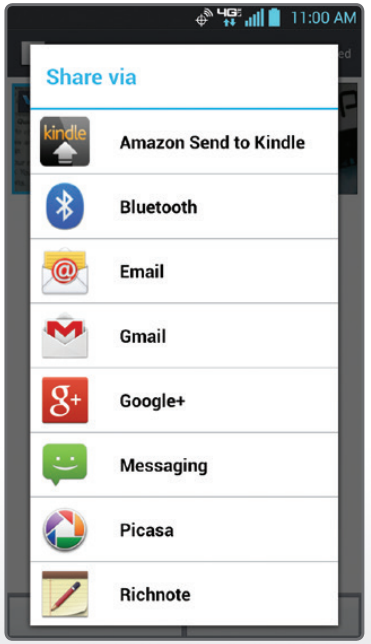
1. From the home screen, touch .
2. Touch to take a photo.
3. To use your voice to take a picture, touch to toggle the Cheese shutter on or off.
4. With the Cheese Shutter on, say "cheese" to take a picture. You can also say "smile," "whisky," "kimchi," or "LG" to take a picture.

Record a Video

1. From the camera screen, touch to switch to the camcorder.
2. Touch to start recording. Touch to stop.

Share Photos and Videos

1. From the home screen, touch , then touch an album.
2. Touch and then touch the item you wish to share.
3. Touch **Share** and choose from a list of options.

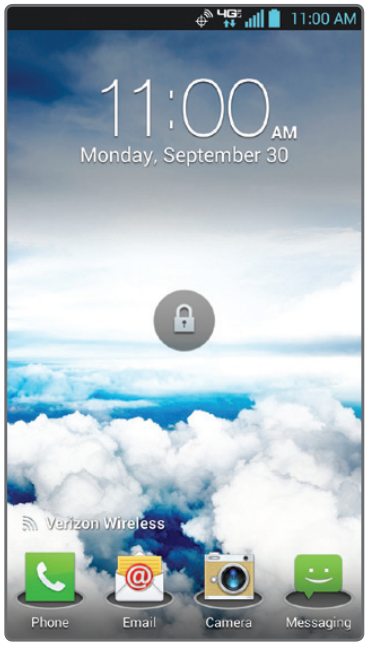


Notes: To access the front-facing camera or camcorder, touch in the viewfinder.
Touch to view and change camera/camcorder settings.

Lock Screen Shortcuts

Lock screen icons give you quick and easy access to frequently used functions without having to unlock your phone.

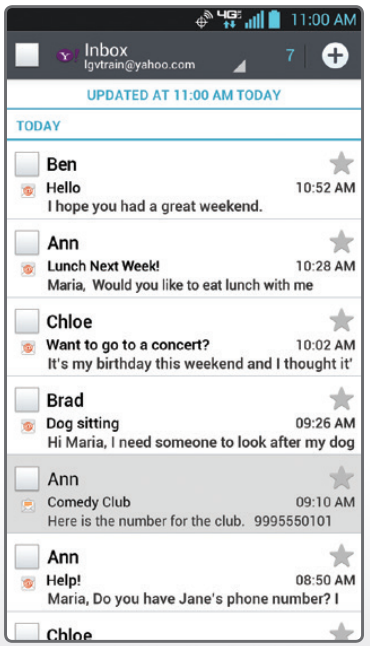
1. When Spectrum^2 is locked, you will see the Phone, Email, Camera, and Messaging icons.
2. Swipe an icon to instantly launch it and unlock your phone.
3. You can also customize your lock screen to suit your preferences. From the home screen, press ⋮.
4. Touch **Lock screen settings** > **Clocks & shortcuts**.
5. Touch the icon you wish to change.
6. Touch an icon to set it.
7. Touch **Save**.



Set Up Email

In addition to Gmail™, you can set up other types of email accounts on your Spectrum2, including Microsoft® Exchange* accounts.

1. From the home screen, touch .
2. Touch an email provider. Steps may vary from this point depending on the account you choose.
3. Enter the email address, password, and other pertinent information associated with your account and touch **Next**.
4. Adjust additional settings if prompted. Touch **Done**. You'll be taken to your inbox.

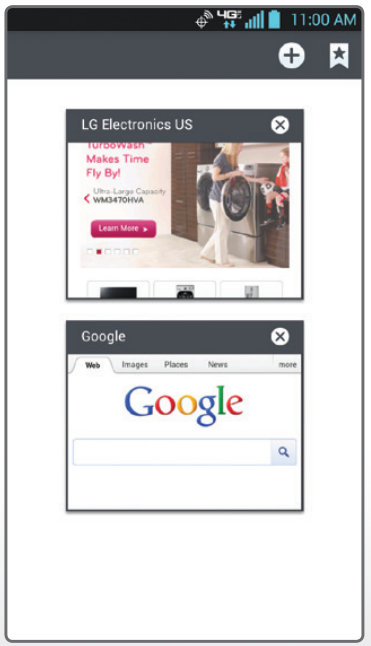


*Consult your IT department for more information when setting up an Exchange account.

Browse the Web

Spectrum^2's speed and large display make web browsing fast, easy, and fun. Bookmark your favorite sites, create tabs to stay organized, and use gestures to navigate.

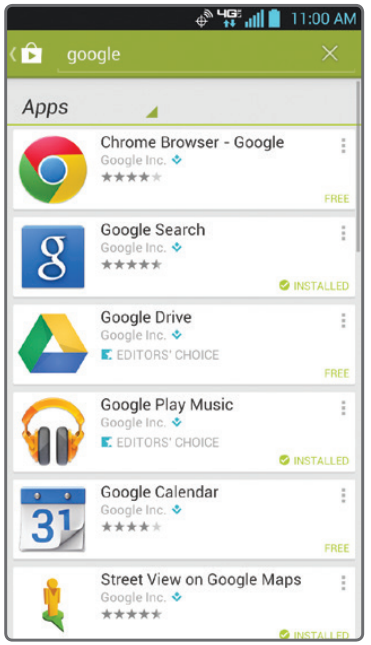
1. From the home screen, touch .
2. To enter a URL, swipe down on the screen and touch the **web address bar** at the top of the page.
3. Enter an address and touch **Go**.
4. Scroll up and down the screen to navigate, and touch links to open them. Use a pinching gesture on the screen to zoom out. Spread your fingers apart to zoom in. You can also press to access additional settings.
5. To open a new browser tab, touch and then touch .

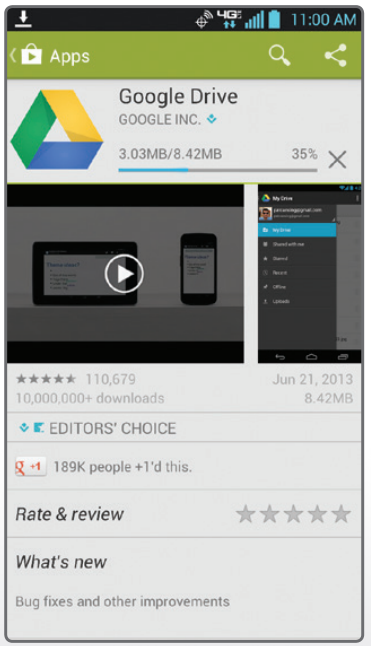


Google™ Play

Choose from thousands of apps, games, music, movies, and books. Browse categories, featured apps, top picks, staff picks, editors' choices, and trending apps. Find just the entertainment you're looking for with Google Play!

1. From the home screen, touch > .
2. If prompted, accept the terms of service.
3. Touch a category to browse selections, or touch to search for an item.
4. Touch an app and touch **Install** (free apps) or the price (paid apps).
5. Touch **Accept**. Once the app has been downloaded and installed, you will see a notification in the Notifications Bar.





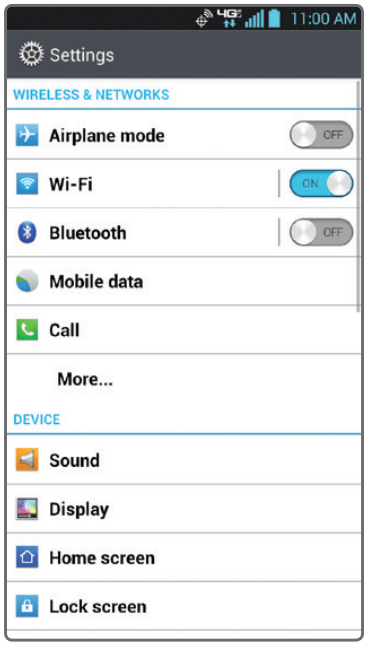
Notes: To use Google Play, you must first create or sign into a Google account.
To purchase a paid app, you may need to set up a payment method with Google Wallet.™

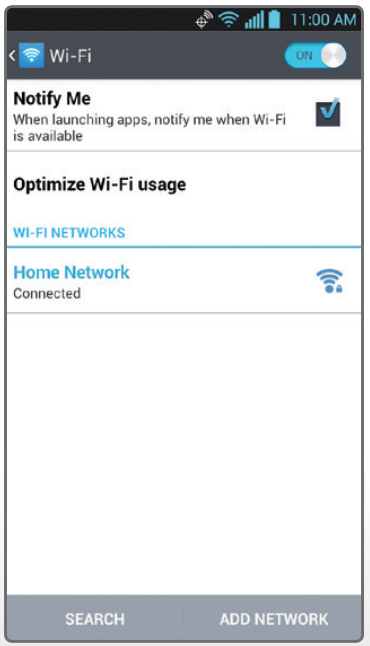
Wi-Fi®

Enjoy the freedom and flexibility of wireless connections with Wi-Fi.

Use Wi-Fi

1. From the home screen, press ⋮ and then touch **Settings** > **Wi-Fi**. Or, swipe down on the Notifications Bar, then touch **Wi-Fi networks available**.
2. If Wi-Fi is not on, touch OFF to enable it. Spectrum[2] will search for available Wi-Fi networks and display them in a list.
3. Touch a network to connect to it. You may need to enter a password.



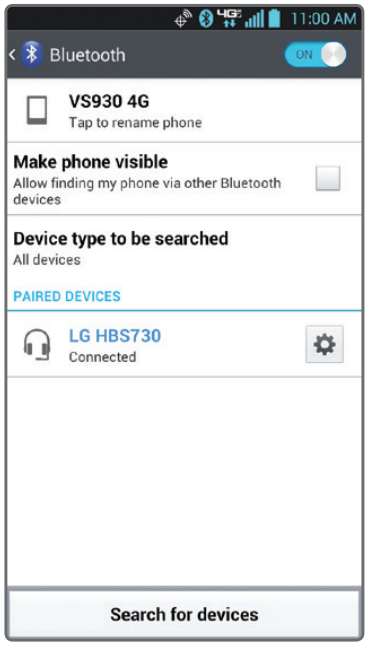


Bluetooth® Wireless Technology and NFC

Spectrum² offers *Bluetooth* 4.0 for easy connections with other *Bluetooth*-enabled devices. Near Field Communication (NFC) adds even greater flexibility for wireless exchanges.

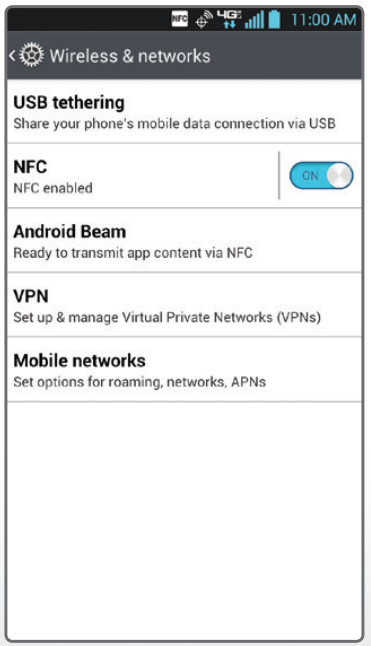
Use *Bluetooth*

1. From the home screen, press ⋮ and then touch **Settings** > **Bluetooth**. Or, swipe down on the Notifications Bar, then press and hold **Bluetooth**.
2. Touch OFF to turn *Bluetooth* **ON** and touch **Search for devices**.
3. Touch the name of the device you wish to pair with. See the *Bluetooth* device's user manual for more information on pairing.



Use NFC

1. To turn on NFC, press ⋮ and then touch **Settings** > **More...**. Or, swipe down on the Notifications Bar, then press and hold **NFC**.
2. Touch OFF to turn NFC **ON**.
3. With the content you want to send on the screen, place Spectrum² back to back with another NFC-capable device to activate data exchange.
4. Touch the content to send it. The other device may need to accept the transfer.



Note: Touch **Bluetooth** or **NFC** in the quick settings menu to toggle them on/off.
